

**Product Name** : Additive  
**Product Code** : SLİP MB 071 PP  
**Transporter** : PP  
**Active Substance** : Oliamide ve Erucamide  
**Product Colour** : Hazy pale Yellow  
**Product Form** : 1,5\*3,5mm Granule

### The areas of use and rates

- Film extrusion : PE ve PP Film Production %0,5-%4 used
- Raffia : Big bag, sack....etc. Products %0,5-%4 used

( Use rates and temperatures in the extruder type and varies by product)

Properties	Test Method	Test Criteria	Acceptance Criteria	Unit
Melt Flox Index (MFI)	ASTM D 1238	230°C/2,16kg	Min18-max23	gr/10'
Density	ASTM D 792		Min0,91-max0,93	gr/ml

**Packing** : 25kg PE Bags

### Main Features Of The Product

- Gives slipperiness
- Film layers easy-opening provides
- Increases brightness and transparency.
- Easy dispersion with polyolefins
- it is convenient to the touch with food
- It does not contain heavy metals and substances from REACH RULES

### Notes

- it is recommended to use mixer to have a proper mixture
- it is obligatory to make a heating adjustment according to the product and mixture levels and it should not decrease under 230C°
- it is provided technical suport in uses of our product
