

Product Name : Addivite

Product Code : VASTAB UV 904 PE

Trasporter : PE

Active Substance : Ultraviyole

Product Color : White

Product Form : 2*3 mm Granül

The areas of use and rates:

- Film Extrusion : PE and PP Film Production
- Raffia : Big bag,.etc products

(Use rates and temperatures in the exruder type and varies by product)

Properties	Test Method	Test Criteria	Acceptance Criteria	Unit
Melt Flox Index (MFI)	ASTM D 1238	190°C/2,16kg	Min4-max7	gr/10'
Density	ASTM D 792		Min0,92-max0,96	gr/ml
Melting temperature			180°C - 210°C	°C

Packing: 25kg PE Bags

Main Features Of The Product

- Resistant to UV rays
- Easy dispersion with polyolefins.
- It is convenient to the touch with food
- It does not contain heavy metals and substances from REACH RULES

Notes:

- It is recommended to use mixer to have a proper mixture
- It is obligatory to make a heating adjustment according to the product and mixture levels and it should not decrease under 200 C°
- It is provided technical suport in uses of our product
